

# Hacker / AI-Enthusiast wanted as CTO for Tech-Startup

## YOU

- .. are **passionate about AI** and machine learning?
- .. want to **contribute** to the field of **machine vision**?
- .. think that **synthetic datasets are key** and manuel labeling is outdated?

## WE

- .. are an early stage startup looking for **you as Co-Founder and CTO!**
- .. do **synthetic dataset generation** and training of CNNs for **machine vision**.
- .. **focus on** factory automation tasks and **real world problems**.

If you strive to achieve an impact in machine vision, you're hard working and you want to just do it, then **you're our CTO and Co-Founder!**  
Make sure to reach out to us, we can talk about anything.
