GenDev

Scholarship for **students** who love to code

Our mission with this scholarship:

SUPPORT YOUNG TECH TALENTS

on their journey as passionate developers

Scholarship for students who love to code

The GenDev Scholarship was established to support aspiring students in the field of computer science to focus on what truly matters: Time to implement your own tech projects.

What you can look forward to

FINANCIAL SUPPORT

450€ monthly for a period of 12 months for more time and flexibility to implement your software projects and improve your skills.

NETWORKING

Share your love for lean software solutions with like-minded people: We invite you to exciting tech talks and events at our Munich office.

WORK & LEARN

Besides the scholarship: If you are curious & interested in working on production code, we will find an exciting project for you in one of our many software teams. Your time and contribution as a working student or intern will certainly be remunerated additionally.

In case you have any questions, please don't hesitate to contact us
